April 25, 2017 (*Revised July 11, 2017*)

## 2017 Road Rehabilitation Project Summary

As part of the Town's ongoing Capital Improvement Program, the Department of Public Works will be rehabilitating various roads throughout Town. These projects have been determined utilizing information from the most recent pavement condition survey and criteria from the Pavement Management System. This work will be coordinated and monitored by the Department of Public Works and performed by Town's paving contractors, D&R Paving and All States Materials Group. Work will typically consist of road milling, leveling, casting adjustments, and/or re-surfacing. Additional road maintenance work to take place will include crack sealing, rubber-chip sealing, and infrared pavement patching. Work will begin in spring 2017 and will last throughout the 2017 construction season. Flyers will be distributed to notify residents in the specific areas prior to work commencing. The following list indicates the street location for the upcoming projects. These dates are subject to change due to weather conditions and scheduling changes. This list is tentative and may change due to scheduling or budgetary reasons. Updates will be posted online at [arlingtonma.gov/dpwprojects](http://arlingtonma.gov/dpwprojects).

Project areas include the following streets:

**Addison Street** (entire)

**Cornell Street** (entire)

**Crescent Hill** (Park Place to 200' N Of Montague St)
